- Stainless steel finish for hygienic elegance
- The gradual initial ice formation ensures no air in the cubes, crystal clear ice.
- A removable door, aids cleaning and hygiene.
- Simple maintenance is ensured by quality design and manufacture.
- A front switch control panel allows for easy function programming.
- A simple and effective air cooling system ensures trouble-free operation.
- Adjustable ice thickness.
- Small and compact, the Whirlpool Ice Cube Makers will fit perfectly behind the bar.
- Large easy-clean polypropylene storage bin.
- Front ventilation means that the K40 can be built in.

DEALER

**IMPORTANT NOTICE FOR HARD WATER DISTRICTS:**  
An appropriate in-line water conditioner must be fitted to ensure optimum ice production. Consult your local dealer for further information.
